

## BI™

Blender + ice/water dispenser

## Making the perfect drink has never been easier.

The versatile Blendtec BI combines an ice dispenser, a water dispenser, and a powerful direct-drive Blendtec blender motor all in one machine. Just add your own product into the jar, place it in the BI, and with the touch of a couple of buttons the perfect drink is created every time.

# You supply the product, the BI™ does the rest.

The Blendtec® BI will dispense cube and crescent ice easily, as well as water; just add product. The powerful 15-amp motor eliminates the need to shave the ice before it goes into the jar. The programmed blend cycles ensure your drink will turn out consistently great, every time.

## Standard Features

-  **POWER**
  - Powerful 15-amp direct-drive blender motor
  - 1800 Watts

---

-  **CONTROLS**
  - Easy-to-use cycle selection and one-touch operation
