SAVE WATER, SPACE AND TIME WITH THE RAPID RINSE STATION™
FROM BLENDTEC®

The Rapid Rinse Station™ from Blendtec® is a small, fast and efficient tool used to rinse and stack containers in sheer seconds. Effortlessly activate the powerful, stainless steel spray nozzle by pressing the container against the platform to deliver 120 degree spray coverage. Best of all, this station can reduce exposure to harmful sanitizers and save time in a busy operation. The Rapid Rinse Station is compatible with any container eight inches in diameter or less. This includes blender jars, pitchers and measuring devices commonly used in foodservice operations. For more information, visit Blendtec.com/Commercial or call 1-800-BLENDTEC.
